

Capability Statement

PARAGON DEVELOPMENT

PARAGON Growth Services LLC
DBA: PARAGON Development
Box 185490
Hamden, CT, 06518

Core Competencies:

PARAGON has experienced project managers and recruiters who identify and quantify high level experts in a wide variety of technologies and industries. We then manage day long Forums that achieve client objectives with the contribution of a group (6-9) of experts who each have unique but important perspectives and past successes relevant to the client's objectives.\

Core competencies are:

- Technology & product innovation
- Meeting management & group facilitation
- Strategic planning & scoping

Outcomes are:

- Innovative solutions to technical and product challenges
- New strategies and plans
- Creative and analytical options qualified--balanced.

Differentiators:

PARAGON has a network of over 80,000 experts across a wide range of technologies, products, markets, and disciplines. We engage them in groups using a proven process that integrates different perspectives into a cohesive understanding according to the client objectives.

We further have a competency to support the 'fuzzy front end' when clients do not even know what they need to do. We can identify the unknown/unknown issues.

Past Performance:

Examples:

Government of New Zealand: Our process has also been used by the Government of New Zealand to consider strategies directed at funding research in various fields with structure of the physical and personnel resources required.

Dow Chemical: Provided the process and information from expert groups to generate new strategies for their packaging, coatings, lubricant additives, adjuvants, and chelant businesses.

Honeywell: Numerous innovation projects in thermal oxidizers, fluoro-chemicals, and functional polymers.

Note: All projects delivered with very high ROI & under budget.

Company Data:

PARAGON was founded in 2001 but also had a predecessor organization from 1969. The organization runs expert groups that generates new business, technical, and product successes.
